Fashion Trends

In the 21st century, the style trends of the fashion industry dominate the world more than they ever did, and around not only the way people dress but also trends in hair, voice design, makeup, fashion and people's overall attitudes. In the 60s, flower power did not only mean flowers and peace, it summed up the whole attitude of a generation, and this is even more prominent today. Nowadays, fashion is bold and daring, and this reflects a new generation that is not afraid to say what they think, no matter what they want. Fashion is not just a means of clothing your body, it is the carrier of your personality and beliefs, and designers are well aware of the power they hold. Designers' predictions and designs for the coming season are more lively and confident than any other prediction in the world.
